

جائزة حميد بن راشد الدولية للاستدامة
HUMAID BIN RASHID INTERNATIONAL
SUSTAINABILITY AWARD

Award Guide in English

Chairman Massage

From the approach and footsteps of the founding father Sheikh Zayed bin Al Nahyan, may God have mercy on him and his interest in environmental matters, the vision of Ajman 2021 was based on the construction of a "happy society that contributes to building a green economy, stimulated by a government that is in harmony with the spirit of the Union. We aim to achieve economic development based on sustainable development and reduce environmental risks. We affirm our commitment to the directives of His Highness Sheikh Humaid bin Rashid Al Nuaimi, Member of the Supreme Council and Ruler of Ajman, to make Ajman an environmentally friendly city. The importance of the emirate and the environment to the environment is not something new, as Sheikh Zayed has taken care of the environment, protecting its resources and sustainable development. Due to Sheikh Zayed's achievements, the UAE has received many awards and awards from international and regional organizations. As a result, an international award was launched, entitled "Hamid Bin Rashid International Award for Sustainability", which calls for the promotion of sustainability and conservation of the environment and its resources, which are carried out by individuals, institutions and companies, aiming at achieving the continuous use of resources and improving the environment for sustainable development. Positive impact on the environment and society.

Introduction

The Government of Ajman gives special attention to everything that is new and contributes to the vision of the Emirate and the vision of the UAE 2021. Sustainability, the preservation of the environment and its resources are one of its most important principles. As the Municipality and Planning Department is a key and main part of Ajman government, it supports sustainability. The Department of Municipality and Planning organizes some events that support the environment as well as sustainability in the presence of prominent regional and international figures in the field of sustainability and discuss the applicability of modern technologies in the environment and climate such as the UAE. The Ajman International Conference on Environment and Sustainability and the Green Buildings and Cities Workshop are one of the events organized by the Department to support and adopt sustainability and conservation of the environment and its resources, and the Department is working to implement some of the principles of sustainability issued by the United Nations. The launch of the Sheikh Humaid Bin Rashid International Award for Sustainability has been announced to encourage individuals and institutions to learn about the technologies offered.

About the Award

Humaid Bin Rashid International Award for Sustainability is a recent award as it was launched at the 5th Ajman International Environment Conference in March 2018 under the patronage of His Highness Sheikh Humaid bin Rashid Al Nuaimi, Member of the Supreme Council and Ruler of Ajman. The award aims at honoring and promoting everything related to sustainability whether it is sustainability research or personalities with contributions in the field. The award is also awarded to institutions that establish and apply sustainability principles and become an example for other institutions.
