13:50pm - 14:30pm

Lunch

Under the patronage of His Highness Sheikh Rashid Bin Humaid Al Nuaimi, the chairman of Ajman Municipality, the municipality organizes an annual sustainability forum. It focuses on sustainability and climate change and outlines a sustainable development plan for Ajman emirate. The forum brings together experts from all over the world to discuss the challenges and potential solutions. It also serves as a platform for citizens to voice their concerns and proposals. Finally, the forum highlights the importance of sustainable development for the future of Ajman. Participants in this forum include:

- Government and non-government organizations engaged in formulating environmental policies.
- National organizations concerned with environmental issues.
- University academics and researchers of diverse fields on relevant topics.
- Environmental professionals from the energy, oil and gas, manufacturing, municipalities, consulting and contracting companies, environmental agencies, and the private sector.
- Undergraduate and postgraduate students.

In alignment with the COP28 event, the Ajman Sustainable Development International Forum (ASDIF 2023) will be launched under the theme

Sustainable Development & Innovative Solutions for Climate Change: **Mitigation and Adaptation**

This year, the seminar is expected to focus on more sustainable development innovation and an equitable future for all by promoting collective action on climate change and encouraging the transition to low-carbon, net zero and resilient economies.

The hosting of COP28 by the United Arab Emirates reflects increasing awareness and interest in the country's commitment to climate change & sustainability. The main goals of COP28 include strengthening the international response to the threat of climate change, promoting sustainable development, and protecting the world's citizens and ecosystems.

7/12/2023
9:00^{am} - 3:00^{pm}
